Daily Colonist.

FRIDAY MORNING, FEB. 27TH, 1880.

L. P. FISHER, 20 and 21 New Merchants Exchange, is our authorised Agent in San Francisco.

GLAD TIDINGS.

So the Gay and Festive has turned up at last. The organ announces in its deepest bass that he will leave San Francisco on the first steamer in March (to sail on the 10th) for Victoria. The Government, then, must have heard from the truant by telegraph at last; for it is no secret that for nearly two weeks the Minister of Finance and the Provincial Secretary have met all inquiries as to the missing gentleman's whereabouts with the stereotyped reply, "My Gawd, how should we know? He's not answered one of our telegrams." The last that *we* heard of the Premier he was doing Turveydrop at Rideau Hall—cutting pigeon wings and pirouetting over its well-waxed floors, and hobnobbing with distinguished guests at dinner. Whether these are accomplishments that go to make a statesman in Columbia remains for the House—if it should ever be allowed to meet—to say. Our opinion is that they appertain more to the alimentary and saltatory powers of the Premier, and have no intimate connection with the cultivation of the intellect or the shaping of a Government policy. That country cannot prosper whose rulers pay more attention to exercising their heels and filling their stomachs with "flavory viands" than they do to the application of their minds to a consideration of the wants of their people. All physical and mental powers should have an equal chance of development; but the Minister who neglects the interests entrusted to his care to run after royal pageants or to intrigue for an empty title or an office of ease and emolument, cannot be tolerated in a country that is in the enjoyment of constitutional government. We concede that the Premier has several good points, but the one that shines the brightest and dazzles people most with its refulgent rays is his strict adherence on all occasions and under every circumstance to *Truth!* For the possession and constant practice of that inestimable quality he is renowned from Victoria to Cariboo. By the strangest possible coincidence the initials of our Premier are identical with those of the great American Truthteller. "G. W." —GEORGE WASHINGTON. "G. W."—GEORGE WALKEM. *Re* markable, is it not? The first "G. W." cut down his father's cherry tree with his little hatchet and confessed the fact. He feared to tell a lie more than he feared the shingle his irate father held in his hand. The second "G. W." has accepted a retainer from the Canadian Government in violation of the Constitution. He, too, will scorn to tell a falsehood; he will confess the indiscretion to the House. The most he will do under any circumstances is to advance the plea of the girl in one of MARYATT'S novels, who became a mother without being a wife, that "it was a very little one." People have come to regard our Premier as a kind of political CHARLEY ROSS. He is continually making mysterious disappearances. But there the *simile* ends; for unlike the poor Philadelphia lad, after a prolonged absence he turns up again. Well, well; we are glad to learn on authority so excellent as the organ that Mr. WALKEM is safe. We thought he might have been stolen. Personally, we wish him well; but politically, he is a thorough failure and deserves to lose his head.

A SETTLED CONTROVERSY.

Our Westminster contemporaries continue to rave on the subject of direct ocean steam navigation to that port, although it has been decided that the ocean mail service shall terminate where nature intended it should—at Victoria. Their persistency deserved success, and if only the depth of water had been there, they must have triumphed. But, unfortunately, the Sandheads and Ladner's mudflat are realities that cannot be written down; and as one of the journals we allude to proposes to remove the heads and flats with a steam-plough (shades of Bedlam! what new type of insanity is this?) and the other in his ravings calls us "a fool;" and, furthermore, as the ocean steamers under the new contract will unload at Victoria, why, there's nothing more remains to be said on the subject.

Dominion Parliament.

THE SENATE.

OTTAWA, Feb. 13.

Mr. Trudel moved the Address in reply to the Speech from the Throne. The Address was seconded by Mr. Vidal. Mr. Scott attacked the railway policy of the Government, and Sir A. Campbell said the Government had commenced in British Columbia just where the late Government had intended to begin. That very route and section had been selected by Mr. Mackenzie. The Government were keeping within the resources of the country, and believed that the development of the country would proceed so rapidly that the road could be built without increasing the burden upon the people.

THE COMMONS.

THE MACDONNELL CASE.

Mr. Mackenzie returned to the charge in regard to the case of Mr. J. A. Macdonnell, and announced that the proceedings of last session would be pursued this session. That is, one imagines, that the Sergeant-at-Arms will request Mr. Macdonnell's presence at "the bar of the House." Macdonnell, it will be remembered, insulted Hon. Mr. Huntington on the floor of the House on the last day of the late session.

Mr. Richey (Halifax) moved the Address in reply to the Speech. The Address was seconded in French by Mr. Houde.

Mr Mackenzie spoke for one hour in which he vigorously attacked the National Policy, and said that but for the abundant harvest in Great Britain the policy would have failed.

Sir John replied reviewing the policy of the Government at great length and contending that as regarded the giving out of the railway work in British Columbia they had followed the policy of their predecessors. He claimed that the policy of the Government had been eminently successful.

Mr. Blake drew attention to the contract for the construction of railways in British Columbia, and to the fact that the railway was only to be undertaken on receiving aid from the Imperial Government. If such aid had not been obtained the Government, therefore, was not sanctioned by Parliament to undertake this great work, and therefore he could not but hope that the contracts spoken of as having been awarded in British Columbia would not be undertaken until the aid from the Imperial Government was secured He, therefore, trusted that the paragraph in the Speech from the Throne which stated, "That contracts had been awarded for 127 miles, from Emory's Bar Savonas Ferry." did not imply that a formal execution of the contract had taken place, but that they had yet to be laid on the table, as the policy representing English aid had not succeeded, then Parliament must have the opportunity of determining whether they would sanction the execution of the contract without such assistance.

Mr. Bunster expressed his regret with regard to the line adopted by the present Government in connection with the western portion of the Canadian Pacific railway. The route on Vancouver Island had been ignored, and that on the Mainland had been chosen, whereas the island possessed a larger amount of capital and more commercial intercourse with the outer world than could be found in connection with the route chosen on the mainland. With regard to the question of labour to be employed in the construction of the railway, he had in his hand a petition from the Workingmen's Association of British Columbia, praying that the Government would not encourage the Chinese labourers. The evil, he said, would be most serious and extensive if this petition were not granted. On the other hand, if the Canadian, English, Irish, or Scotch, or white men generally, were employed, the result will be that a good class of settlers will establish themselves along the line, which would promote the prosperity, the intelligence, and civilization of the country. We should put our shoulders to the wheel, and protect our country from the invasion of the Chinese, who being so populous would, if encouraged by the Government, in time swallow us up.

Mr. DeCosmos called attention to the route of the railway decided upon in the west coast of the Dominion, saying that after an exploratory survey it had been decided to adopt the location of the line to Burrard Inlet, and contracts have been awarded for 127 miles of the railway, between Emory's Bar, on the Fraser River, and Savonas Ferry. The line appeared to be adopted without receiving full information from the exploration party sent out, and he therefore concluded that the exploring party was sent out merely for the sake of delay. These were the two routes considered and one has been adopted, and the other rejected without the reasons being given for this course. Although one had been selected, they had no more grounds for believing that any more work will be done on it than the completion of the contract between Emory's Bar and Savonas Ferry. He believed the contractors will do their best to fulfil the conditions and the Government will urge them on towards its completion in British Columbia. There was a strong feeling against the Government in giving out to foreigners the contracts for the construction of the road from Emory's Bar to Savonas Ferry. It being considered that it was hardly in agreement with the National Policy not to protect our contractors from foreign or United States competitors. The wisest course for the Government would have been to have given out the contract to our own citizens. Our people fully expected that the Government would have carried out the agreement made with British Columbia and have done something for a railway between Esquimalt and Nanaimo, but it now appeared that this agreement possessed very little weight with the Government. The hon. member denied the statement that the Premier had made a promise to the people of Victoria with respect to the route of the railway when he was elected as their representative. They elected him on account of his experience and wisdom and statesmanship, and not for any promise made, but they fully expected that the Premier would endeavor to carry out that policy which they had decided upon when formerly in office and for which Sir Hugh Allan was to receive the contract.

Mr. Barnard replied to Mr. DeCosmos, and challenged him to find a baker's dozen in British Columbia who would declare that the line had not been properly located. Whenever delays were sought for, that hon. gentleman assisted in finding them in hope that the route would meanwhile be changed, so as to more closely meet his views. It ill became the hon. member to take grounds against a location which was selected by two Governments and advocated by him (Mr. DeCosmos) in his first speech on the railway question.

From London.

The Hudson Bay Co.'s bark Prince Rupert, Capt. Main, arrived at Esquimalt from London yesterday morning with a full cargo of freight, consisting of 625 tons of assorted merchandise for consignees in this city and 245 tons of supplies and ammunition for H. M. Naval Yard. She made the voyage in good time, being only 128 days out from Deal; but would have arrived several days sooner had she not encountered unfavorable weather outside the Straits. Shortly after leaving England two of her crew refused to obey orders and were placed in irons for the remainder of the voyage. They will be brought up before the Police Magistrate this morning. The vessel will begin to discharge Esquimalt freight to-day, will subsequently be towed round to this harbor and will commence to discharge Victoria merchandise on Monday next.

The Weather and Stock on the Mainland

Latest advices from Osooyoos and Okanagan state that the weather there has been dreadfully severe. Such intense and continuous cold has never before been experienced by the residents. At the former place, however, little or no snow had fallen this season, but at Okanagan there were some three feet of snow still on the ground. Cattle were dying, but the total loss will not be so large as was anticipated at date of former advices. The side hills have become partially bare and horses were doing fairly. As an instance of the intensity of the cold it is mentioned that a large number of fowls were frozen to death although sheltered in houses considered fit to withstand any weather.

THE STUMP ERADICATOR.—The stump extractor imported by Mr. Dalby has been subjected to further tests of a severe character and pronounced the best machine of the kind yet invented. Mr. H. Simpson writes from South Saanich on the 24th inst. to say that from 10 a.m. to 2 p.m. he removed twelve large stumps, and desires that his experience should be made public. Mr. Anderson, Secretary of the Saanich Agricultural Society, has sent a communication to Mr. Dalby on behalf of the Society. The machine was subjected to the severest tests on the fair grounds and gave "entire satisfaction." The Secretary adds that in the opinion of the Board of Directors and others who were present at the trial "the machine is capable of drawing the largest stumps with the greatest ease, and is certainly the most powerful and efficient, and at the same time the most simple, ever seen used by any of them." With these certificates in his hands Mr. Dalby will be fully justified in placing the machines on sale.

Municipal Police Court.

[Before Hon. A. F. Pemberton.]

THURSDAY, Feb. 26.

The case of David Green, summoned for obstructing a sidewalk by permitting an awning to be at a height less than 9 feet from the sidewalk, again came up for hearing.

The defendant stated that he had acted under a misapprehension in the matter, expressed his regret for having violated the provisions of the by-law under which the proceedings were taken, and asked his Honor to dismiss the case. He also regretted any incivility which, on the spur of the moment, he might have shown to the police.

His Honor told the defendant that he was now pursuing a wise course in the matter. The police force were an efficient body of men and incivility or any attempt to obstruct them in the performance of their duties could not be tolerated. The Municipal Council, who devoted much time and pains to the making of laws for the good government of the city, without any remuneration whatever, should be respected and assisted in carrying those laws out.

The defendant stated the awning in question has been raised to the prescribed height and would be kept there in future.

His Honor then directed that the summons be dismissed.

A MAP OF RUBY CREEK. — The Seattle *Post* states a map of Ruby Creek has been drawn by Mr. R. M. Creswell, who with the use of a pocket compass ascertained the following distances: From Seattle to Mt. Vernon, steamboat men have it, 65 miles; from Mt. Vernon to Baker river, 39 miles; from Baker river to Sauk river, 8 miles; from Sauk to portage, 15 miles; from portage to Goodell's 6 miles; from Goodell's to the mouth of Ruby creek, 15 miles; from the mouth of Ruby creek to the mouth of Panther creek, 4 miles; from Panther creek to the mouth of Granite and Canyon creeks, 4 miles; and on Canyon to east fork of same, 4 miles. Mr. Creswell found the East fork of Canyon creek to be a gorge of snow and ice, with no water visible. On Canyon proper deep snow and continuous snow slides made it hazardous to prosecute researches.

MARINE.—Owing to the prevalence of a gale at Departure Bay on Wednesday the steamer Pilot did not leave there with the ship Blue Jacket (bound for San Francisco with coal) as was expected. The vessel dragged her moorings, but sustained no injury. She would proceed to sea at 6 o'clock last evening....The bark Mary G. Reed, 596 tons, has been chartered at San Francisco to load lumber at Burrard Inlet for Valparaiso....The ship Elvira Dovale, Capt. Pimental, with lumber from Burrard Inlet, arrived at Callao on the 15th inst.

THAT PUMP.—No, no! neighbor *Standard*. Counsel the Government to retain their pump for use on their own leaky craft. They need it worked up to its full power to keep the ship of State afloat. The captain deserted the vessel long ago. The first mate has donned a cork waistcoat; and if the second mate cannot lay violent hands on something buoyant he must fall back on the pump. On no consideration could we think of depriving the poor man of his only chance for safety.

SPRING IS COMING.—The buds are bursting into form. Passing along Lover's Lane, yesterday, we saw in vegetation many indications of renewed life; and returning to town we observed what in England would be considered an infallible sign of early Spring—a male swallow————ing a glass of beer.

EUROPE.

PARIS, Feb. 21.—The demand of Russia for the extradition of Hartmann has been referred by Premier Freycinette to the ministry of justice. It is stated that some reactionary deputies applied for the man's release, but were told that if it appeared he was connected with the Moscow attempt, the government would surrender him to the Russian authorities.

ST. PETERSBURG, Feb. 21. — The police have sent a number of experienced officials to the police of England, Germany and France asking assistance in searching for conspirators against the life of the czar.

LONDON, Feb. 21.—A Bucharest dispatch announces that Belgium has recognized the independence of Roumania.

ST. PETERSBURG, Feb. 23.—The explosion made a hole in the floor of the dining hall 10 feet long and 6 wide.

Alexander of Hess, in a letter to his wife, from St. Petersburg, says: We were proceeding through a large corridor to his majesty's apartment, when suddenly a fearful detonation was heard. The flooring was raised as if by an earthquake, the gas extinguished and we were left in total darkness. At the same time a horrible dust and smell of gunpowder or dynamite filled the corridor. Some shouted that the chandelier had fallen in the saloon where the table was laid for dinner. I hastened thither with the Czarowitch and Grand Duke Vladimer, while Count Allerberg, in doubt as to what might happen, held back the Emperor. We found all the windows broken and the walls in ruins. The dinner had been delayed for half an hour for my arrival, and it was owing to this circumstance that the imperial family had not yet assembled in the dining hall.

ST. PETERSBURG, Feb. 24.—An eminent general recommends that the Winter Palace be given up as an imperial residence, in favor of the palace opposite the Izack cathedral.

Baron Von Schell, privy councillor, has committed suicide, his mind being affected by the explosion at the palace.

Gen. Repoff has been appointed military governor of the Winter Palace vice General Delsalle, who has become paralyzed.

VIENNA, Feb. 22.—The *Tugblatt* relates that for some days past the Czar has daily received a sealed letter containing a few words of menace and saying that if he did not change his system of oppression he would not live to celebrate the twenty-fifth anniversary of his accession. The sheet was always bordered with black, and in court circles it was known as the "black letter." All efforts to discover the persons who conveyed it to the Emperor's room were unsuccessful.

MOSCOW, Feb. 22.—A fire broke out yesterday in the Academy of Forest Culture and the entire building, which which was capable of accommodating 300 students, and including a museum containing valuable collections, was destroyed. The cause of the fire is unknown. When the fire was discovered some students were arrested.

The reichstag to-day resumed debate on the budget. Herr Volkardoff, conservative, declared himself in favor of a biennial budget, but urged expediency of an annual session of the reichstag. He said an increase of the army was rendered necessary by changes in the political situation. It was not from fear of a war of revenge on the part of France that the government thought it requisite to increase the army, but from the consideration of what was passing on in the country bordering Germany on the east. The shameless Nihilists who were pursuing the Czar with their crimes were the same panslavists who declared in Berlin that they desired to take possession of Constantinople.

PARIS, Feb. 23.—Hartmann, who is charged with having been connected with the Moscow explosion, has declined to give any information on the subject. He has acknowledged being a nihilist.

The Russian embassy have received documents with a view to proving the criminality to Hartmann in connection with the Moscow explosion.

ROME, Feb. 23.—The Pope has sent instructions to Catholic bishops in Russia calling upon them to urge the clergy not to mix in political agitations.

An official messenger announces that the inquiry into the Winter Palace explosion has had the result of rendering it to some extent certain that the crime was committed by a person who passed as a workman, and that there is reason to suspect a connection between this person and some individuals who were arrested previous to the explosion.

It is rumored that a lady of high rank has been arrested in St. Petersburg on suspicion of being connected with the Winter Palace conspiracy. It is also said that the czar and czarovitch had a long interview yesterday. Reports of the czar's prospective abdication are pronounced false.

BERLIN, Feb. 24.—The *North German Gazette*, commenting on the reported intention of Russia to erect fortifications in Roano, Bialystok and Grodno, says that this is done probably to create the belief among the Russian people that ar attack on the part of Germany is feared.

LONDON, Feb. 21.—In the house of commons Plimsoll read his apology for the language in his hand bill reflecting upon Sir Charles Russell, member for Westminster, and Onslow, member for Guildford. He said that he had convinced himself that Sir Charles and Onslow had acted from no wish to obstruct his bill for loading grain in bags. Sir Charles Russell said since it was no longer a personal question, but one affecting the privileges of the house, he placed himself in the house. Onslow then asked the house to accept the apology.

LONDON, Feb. 24.—In the house of lords the Duke of Argyle moved for correspondence found at Cabul between Shere Ali and the Russian authorities. Lord Cranbrooke, secretary of state for India, refused to produce the papers.

Lord Beaconsfield said that the British government considered that the time had arrived when they should settle forever who should possess the great gates to India. The policy of the government, distinctly and repeatedly declared, had not swerved for a moment from complete command of the great gates of the Indian empire, and they had been obtained with absolute success. Many things had occurred which the government had not contemplated, but nothing had occurred which for a moment could induce them to modify or change their policy. They had been asked why, if they had completed that policy, they had not withdrawn from Afghanistan. They could not now when the people are in a state of comparative anarchy.

The Duke of Argyle then withdrew his motion for the production of the Afghan correspondence.

CALIFORNIA.

SAN FRANCISCO, Feb. 20.—On Tuesday evening a company to be known as the Swiss Italian, anti-Chinese dragoons was organized in this city. Forty members signed the roll and subscribed to a pledge that they would keep the secrets of the organization inviolate. A resolution to notify the city authorities that the organization was prepared to render them any assistance in their power, as such organization, or as citizens to remove the Chinese nuisance from the heart of this city, was unanimously adopted.

Late last evening a warrant was issued for the arrest of Tiburcio Parrott, of the firm of Parrott & Co., on a charge of employing Chinese in the service of the Sulphur Bank Quicksilver Mining Co., of which Parrott is president.

SAN FRANCISCO, Feb. 24.—Richards M. Brandon, commission merchant, has filed a petition in insolvency. Liabilities, $73,000, mostly secured; assets, $11,000.

The workingmen held their usual meeting and parade this afternoon. Some of the speakers advised organization, so that when trouble came they would not be unprepared.

The mass meeting to-night of workingmen at Union Hall was very largely attended. Mayor Kalloch was the principal speaker. His address was conservative in advising his hearers to avoid all unlawful measures in carrying out their efforts for local settlement of the Chinese question. The audience was enthusiastic, but orderly and attentive.

At a special meeting of the board of health to-day a resolution was adopted condemning Chinatown as a nuisance. The board of trade and chamber of commerce now in session are considering the question of getting up a subscription for the unemployed.

EASTERN STATES.

WHEELING, W. Va., Feb. 20.—About a month ago the residence of William Worrell, near Claysville, Pa., was burned. It was evident at the time that it was the work of an incendiary; but late developments have brought very revolting facts, besides confirming the incendiary theory. James Worrell, son of Wm. Worrell, was engaged to be married to a young lady in Washington county, but not having means to support a wife he undertook to destroy his father and sister in the flames so that he could come into possession of the property, and be enabled to carry out his wish. Before setting fire to the house he locked his sister in one room and tied his father in another. Fortunately the servant discovered them before the flames reached them and with difficulty saved their lives. Worrell is 21 years of age and highly educated. The family are highly respected in the community in which they live.

GALVESTON, Texas, Feb. 23.—An informant from near Linden, Cass county, gives the following: Mrs. Clarke, a respectable married lady, living in the Garry neighborhood, was yesterday brutally outraged and then murdered. Three men have been arrested. One has confessed. He was horribly mutilated by a mob and his clothing saturated with coal oil and set on fire. He was afterwards hanged. Intense excitement prevails.

The libel on the Lord Lord Mayor of Dublin for which the publishers of the *Dramatic News* are held is as follows:—"How that mischievous, ill conditioned burlesque of a legislator, Gray, is descended we don't know, nor, seeing his character so apparent, does it much matter. The guests who had been obliged to accept his invitation to the Mansion House are to be warmly congratulated on their escape from such a humiliating business as his dinner must have been." The article also insinuated that fear existed that the Mansion House relief fund would be misapplied. The case was adjourned until Saturday.

An English coachman was asked to tie up a dog, and he resigned on the ground that it was the butler's duty. The butler declined and resigned, and after six servants had left the Earl tied up the dog himself.

A young lady at Ibister, Orkney, recently fell 100 feet from a crag, and seems to have been able to crawl under the shelter of a rock where she was found dead.

A young man was recently released from prison in London, where he had been confined for contempt of court for eloping with a ward in Chancery and marrying her.

From numerous experiments made in the great hospital at Posen, Prussia, it appears that ice is a most effectual remedy against small-pox. One of the patients, in a fit of delirium, escaped to the garden, where the snow lay two feet deep. There he remained the whole night, with no covering but his shirt. On the following morning the fever had subsided and the pustules had dried. The strange circumstance attracted the physicians' attention, and, after consultation, they determined to keep the temperature of the small-pox wards very low, and apply small quantities of ice to the patients. The results surpassed their expectations, and at the end of a week all the patients had recovered.

WASHINGTON, D.C., February 10. — Among the many expensive toilets noticed at Senor Seamacona's magnificent ball last evening, that of Mrs. Astor, jr., of New York, was the most costly and perhaps the most admired. Mrs. Astor wore over $800,000 worth of diamonds. Her earrings consisted of two wonderful solitaires, valued at $50,000 each. In addition to the costly necklace and head ornaments, the lady wore arranged in a diagonal fashion across the corsage a diamond chain composed of 500 stones of the value of one thousand dollars each.

Theodore Tilton was to lecture in Parsons, Kan., and the Committee was at the station to receive him. They stepped up and welcomed with fervour and enthusiasm a long-haired gentleman who alighted. He seemed greatly astonished at the reception, and at length said, "I don't know, gentleman, what you mean by all this; but this I will remove warts or bunions in thirty minutes without pain, or forfeit my reputation." It was an itinerant corn doctor whom they had mistaken for Tilton.

A lady who had quarreled with her bald-headed lover said, in dismissing him, "What is delightful about you, my friend, is that I have not the trouble of sending you back any locks of hair."

MONTREAL, Feb. 13.—Mr. Abbott was elected for Argenteuil on Thursday by a majority of 64.

Two gentlemen from Scotland have just emerged from the bush forty miles back from Gaspe, where they have been encamped since October last, having passed up the stream in canoes before it was frozen, with three months' provisions obtained in Quebec. They killed 48 cariboo during their stay in the bush.

A Vast Empire Planned.

Speaking of the German Empire, its power and extent, the alliance between Germany and Austria, the ambitious plans of Bismarck to become master of the Danube and to connect the German-Austrian possessions by railroad with the Gulf of Salonica, Emilio Castelar says: "This immense Germanic Confederation, which will be realized before long by force and by necessity of prevailing circumstances, containing 80,000,000 of people, could only be opposed by another confederation, not less grand and much richer, much more influential and brilliant, a real league of modern times by its democratic spirit and artistic inspiration; a Latin confederation, which could represent 80,000,000 of free people for the purpose of sustaining and making prosperous the cause of liberty in the world. Sad would it be if the intelligence of the empire of the North should make itself felt, while the same should not be the case with the people of the South, and if the despots of old, the docile instruments of Providence, should dream to wrest Poland from Russia, while we, the favorite sons of liberty, should not indulge in the dream of wresting divine Greece from the hands of Turkey." In regard to the relations of Spain and Cuba, he is decidedly in favor of emancipation of the slaves, and says in conclusion:—"When we have no slaves any more we can commence a period of pacific and intimate relations with our America! which shall know, and will know, that there exists with us not the least desire of any domination or reconquest, but the wish—the most fervent wish—of seeing Cuba independent, free and happy in the bosom of peaceful and liberal republics."

THERETO PERTAINING.

EMORY is pleasantly situated on the right bank of the Fraser River, at the unobstructed Head of Navigation, the Terminus and Initial Point of Construction of the Canada Pacific Railway in British Columbia.

EMORY is the natural and inevitable entrepôt and outlet for the Mineral, Agricultural, Pastoral and other Resources of the vast interior, and as the Main Station on this side of the Rocky Mountains with the consequent Round-Houses, Machine Shops, Work Shops and Workman's Dwellings, it cannot fail to become one of the most important and prosperous Cities on the PACIFIC SLOPE, while the large influx of Population and the sudden growth of industry incidental to vigorous Railway Construction must insure its becoming the Great Centre of the Commerce and Carrying Trade of British Columbia.

The CITY OF EMORY has been admirably laid out, nearly all the Lots having a Double Frontage, and the Main Streets carrying a uniform width of Sixty-Six Feet throughout.

The circumstance of the Railway Contractors being the principal owners of the Townsite will be a sufficient guarantee for the interests of Emory being well cared for.

☞ There can be no Rival to this the only available Townsite, all the surrounding land being locked up in the Government Railway Reservation.

Four Swift and Commodious Steamers will be placed on the river next season, connecting at New Westminster with the splendid and fast steamers "Princess Louise," "W.G. Hunt" & "Enterprise," thus establishing DAILY STEAMBOAT COMMUNICATION and enabling Passengers, Mails and Freight to reach the Terminus of the Canada Pacific Railway in fourteen hours from Victoria, running time.

Capt. Irving desires us to state that he is now preparing for the immediate construction of WHARF and WAREHOUSE accommodation at the City of Emory to meet the requirements of the immense traffic certain to concentrate there next season.

Mr. Charles Morton is perfecting arrangements and will establish the

EMORY HOUSE

Early next Spring as a first-class Hotel, to meet the requirements of Trade consequent upon the commencement of vigorous Railyay Construction.

Several large Commercial Firms are preparing to establish themselves at Emory early in the coming season.

MAPS of the City of Emory have been carefully prepared and are now ready for FREE distribution, and every facility will be given intending purchasere for obtaining the fullest information.

TERMS—One-half of the purchase-money to be paid down in cash; the balance in sixty days by approved endorsed notes, bearing interest at the rate of 8 per cent. per annum

DEEDS, giving Indefeasible Title, will be delivered to the purchasers within ten days after the sale, a conveyance fee of $2 50 being charged.

VICTORIA, B. C., 1st December, 1879.

COUNCIL CHAMBERS, Victoria, 8th January, 1879.

To the Worshipful the Mayor and City Councillors:—

GENTLEMEN,—In presenting statements of receipts and expenditure, cash assets and liabilities, and ledger balance sheet, I have to direct your attention in particular to the expenditure of 1879. This expenditure, embracing 13 months, includes outstanding accounts for December, 1878, and arrears of previous months, amounting in all to $7,622 37. The Corporation books now contain all known liabilities to 31st December, 1879, therefore, the present Statement shows 13 months' general expenditure and some arrears.

The excess of liabilities as shown on 31st December, 1879, in the Statement of cash assets and liabilities being $3,138 25 only, and the excess of payments during the year $7,622 37, it follows that your affairs are in a sound condition, as without such payments there would be a balance in favor of 1879 of $4,484 16.

As the Cash Statement does not show the actual expenditure on many important accounts to the close of the year the following entries, taken from the transfers to close, will supply that deficiency, i. e.—

Street Repairs	$17,136 36
City Police	9,987 47
Charges	5,152 64
Street Lighting, 14 months	3,846 32
Legal expenses	610 00
Water Works	16,222 13
	$62,954 92

The difference between the actual expenditure as above and the cash expenditure as shown in the Statement is $10,075 88, which will account for the bulk of the liabilities of the Corporation at this date (31st of December, 1879).

I have the honor to be, Gentlemen,
Yours, most obediently,
J. C. BALES, Auditor.
